Employment Obligations and Responsibilities for January 2026

During March 2026, I continued my role as a Campus Ambassador by promoting the services and opportunities offered by Edwise International among students through both online and offline platforms. My responsibilities included spreading awareness about study abroad programs, counseling support, and career guidance services provided by the organization.

I actively created and shared engaging content such as Instagram stories, reels, and posts to reach more students and increase visibility. I also interacted with students personally, answered their basic queries, and encouraged interested candidates to register for counseling sessions and webinars.

In this month, I was additionally assigned the responsibility of tracking the performance of interns. I started monitoring whether interns were completing their assignments on time and maintaining quality standards. I prepared and managed Excel sheets for recording their daily and weekly performance marks based on punctuality, task completion, and consistency.

Along with tracking, I regularly provided updates to the team regarding the progress of interns, their performance levels, and any issues related to incomplete tasks. This responsibility helped in improving coordination and ensuring better productivity among the intern team.

Furthermore, I participated in team meetings, followed the program guidelines, and ensured timely submission of weekly tasks with proper documentation and proof of activities. Throughout the month, I maintained professional conduct while representing the organization and worked towards improving student engagement and brand visibility on campus.
